Professional Summary

Senior Frontend Engineer with 4+ years building high-performance React applications and scalable Micro-Frontend architectures. Track record architecting onboarding and CRM platforms, leading engineering teams, and driving React/Module Federation adoption that cut release cycles by up to 50%.

Technical Skills

Core Frontend: React.js, TypeScript, JavaScript (ES6+), Redux, Context API, React Query, HTML5, CSS3, Tailwind CSS

Build & Architecture: Webpack 5, Vite, Module Federation, Micro-Frontends, Component Libraries, Design Systems

Testing & Quality: Jest, React Testing Library, Unit Testing, End-to-End Testing, Code Reviews

DevOps & Tools: AWS (S3, CloudFront, Lambda), Docker, CI/CD, Nginx, Git, Agile/Scrum, System Design

Professional Experience

Gemini Solutions, Gurgaon

Jan 2022 – Present

Senior Software Engineer L2 | *Tata AIG – User Management and Onboarding Platform*

- Architected a scalable onboarding platform frontend using React, TypeScript, Redux, and Material UI, reducing onboarding time by 60%.
- Automated Aadhaar, PAN, and document verification integrations, eliminating 80% of manual data entry and 40% of duplicate code.
- Built a Role-Based Access Control system and implemented WebSocket-driven browser notifications for real-time approval and status updates.
- Collaborated with UX and backend teams to deliver pixel-perfect, accessible interfaces, resolving critical production issues without post-release regressions.

Senior Software Engineer L1 | *Emaar Group – Helpdesk Tool*

- Designed a JSON-driven form builder enabling 100+ configurable workflows, reducing frontend development time by 40%.
- Led a team of 6 engineers through Agile sprints, establishing code review and state-management standards that cut production bugs by 25%.
- Implemented a Micro-Frontend architecture using Webpack 5 and Module Federation, enabling independent team deployments and cutting release cycles by 50%.
- Managed the CI/CD pipeline and Nginx deployment configuration (99.9% uptime) and raised unit test coverage from 45% to 85% with Jest and React Testing Library.

Software Engineer L2 | *Tata AIG Insurance – CRM Platform*

- Established Micro-Frontend architecture using React, Webpack 5, and Module Federation, resulting in 50% reduction in release cycles.
- Engineered complex UI components with advanced State Management (Redux, Context API), improving application maintainability and reducing state-related bugs by 40%.
- Partnered with UX designers to implement pixel-perfect, accessible interfaces, achieving WCAG 2.1 AA compliance.

Software Engineer L1 | *Sharemeister Inc, USA – Ahura & Athletic Estate*

- Shipped 5 responsive web applications using React, TypeScript, Tailwind CSS, and Vite, serving 50K+ monthly active users.
- Delivered a custom WebRTC video chat interface with real-time status indicators and screen sharing capabilities, achieving a 98% connection success rate.
- Optimized React component rendering and API integration, reducing Time to Interactive (TTI) by 60% through memoization and virtual scrolling.

Open Source Projects

MUI Smart Form Builder (NPM)

- Authored a React/TypeScript form library rendering and validating fields via JSON-schema, improving form accuracy and reducing development time.

MUI Smart Table (NPM)

- Constructed a responsive React data table with server- and client-side pagination, multi-column sorting, filtering, expandable rows, and custom cell rendering.

Resume ATS Checker (GitHub)

- Launched a Next.js app that parses PDF/DOCX resumes and scores them against job descriptions via the Gemini API.

Education

Bachelor of Engineering (B.E.), Panjab University, Chandigarh (2018–2022) | CGPA: 7.72/10
